

MISSOURI STATE PLAN

COMMODITY SUPPLEMENTAL FOOD PROGRAM

Missouri Department of Health and Senior Services Community Food and Nutrition Assistance

INTRODUCTION:

The Missouri Department of Health and Senior Services (MDHSS) administers the Commodity Supplemental Food Program (CSFP) in Missouri in accordance with the provisions of 7 CFR Part 247 and with the provisions of 7 CFR Part 250, as applicable. The Missouri CSFP Policies and Procedures Manual provides details about how the program is implemented and is available on the Missouri CSFP webpage along with other information for program outreach and for use by the local agencies. Exhibit A lists the information available on the webpage and current web addresses.

1. LOCAL AGENCIES, in accordance with 247.6(1):

The names and addresses of all local agencies and subdistributing agencies with which the State agency has entered into an agreement are provided in Exhibit B. MDHSS has established sole source contracts with the six Second Harvest Food Banks in Missouri, referred to as local agencies in this document. See Exhibit C for a copy of all agreements including the sole source justification.

2. INCOME ELIGIBILITY, in accordance with 247.6(2):

Women, infants and children are income eligible if they are certified as receiving food stamps, are a member of a family that is certified eligible to receive assistance under TANF, are a member of a family in which a pregnant woman or an infant is certified eligible to receive assistance under Medicaid or have household income at or below 185 percent of the Federal Poverty Income Guidelines published annually by the Department of Health and Human Services. Elderly persons are income eligible if they have household income at or below 130% of Federal Poverty Income Guidelines published annually by the Department of Health and Human Services.

Elderly guidelines are implemented immediately upon receipt. The women, infants and children income guidelines are implemented on April 1st, the same time the Missouri Special Supplemental Nutrition Program for Women, Infants and Children (WIC) implements the guidelines.

Income and income exclusions are defined in accordance with 7 CFR 247.9(e). Missouri CSFP chooses to exclude all sources of income allowed to be excluded in 7 CFR 247.9(e)(2) and excludes those required to be excluded in 7 CFR 247.9(e)(3). When warranted, all local agencies consider the household's average income during the previous 12 months and current household income to determine which more accurately reflects the household's status per 7 CFR 247.9(e)(4).

3. NUTRITIONAL RISK CRITERIA, in accordance with 247.6(3):

Nutritional risk criteria are not evaluated in the Missouri CSFP.

4. SERVICE PLAN AND CASELOAD NEEDED, in accordance with 247.6(4):

Available caseload is allocated to the local agencies taking into consideration the need in the service area, the request for caseload submitted by the local agencies and the demonstrated ability of the local agency to administer the program. The local agencies may establish agreements with other public and/or private non-profit agencies to certify applicants and to distribute food packages in accordance with federal regulation and Missouri CSFP policies and procedures.

Population Group Eligibility:

Individuals must fall into one of the eligible population groups as defined in 7 CFR 247.9(a).

Residency Requirement:

Persons eligible for Missouri's CSFP must reside in Missouri, within the service area of the local agency. There are no duration or fixed residency requirements. Migrant and seasonal farm workers shall be considered as meeting the residency requirement. Local agencies are authorized to serve residents from counties outside their normal service area as long as the area served does not overlap another local agency's service area. Elderly persons living in nursing homes are not eligible for CSFP benefits.

Caseload Needed:

The Missouri Department of Health and Senior Services administers WIC as well as CSFP and both programs collaborate on outreach, planning, and data sharing. See Exhibit D for a copy of the agreement signed with the State WIC agency. CSFP targets women, infants and children who are not eligible for WIC such as children five years of age and non-breastfeeding women who are between 7 and 12 months post partum.

Data obtained from the Census Bureau indicate a significant number of elderly adults live in poverty in the service areas. Exhibit E compares the current caseload to the need in counties served and presents phased targets for expanding CSFP.

5. OUTREACH PLAN, in accordance with 247.6(5):

Outreach activities are conducted at both the State and local agency level. The Missouri Department of Health and Senior Services has developed several outreach flyers that are available on the Missouri CSFP webpage to promote and advertise the CSFP in WIC agencies, to the general population and to the elderly. Coordination at the state level is outlined in the Memorandum of Understanding between the Bureau of Community Food and Nutrition Assistance (BCFNA) and the Bureau of WIC and Nutrition Services (BWICNS), see Exhibit D. Local agencies refer categorically eligible women, infant and child applicants to the WIC Program, especially those who appear to be at high risk, while providing applicants with the right to choose between the two programs. Statewide press releases are issued through the Missouri Governor's Office as appropriate to highlight newsworthy program events.

Local CSFP agencies are encouraged to work closely with the WIC agencies and the Area Agencies on Aging in their areas to market the program. Local agencies use the outreach flyers at social service outlets, doctors' offices, clinics, child care centers, hospitals, social security offices, senior citizen centers, churches and unemployment offices when caseload is available. A toll free number is provided on the outreach flyers to direct potential participants to the nearest CSFP local agency.

6. SYSTEM FOR STORING AND DISTRIBUTING COMMODITIES, in accordance with 247.6(6):

USDA commodities are shipped directly from the USDA contracted warehouse to the local agency warehouse. The state monitors and approves all multi-food and direct shipment requests for commodities. Local agencies are responsible for the receipt and storage of commodities; the preparation and distribution/delivery of the food packages; and the certification of participants.

Local agencies recruit and/or establish food distribution sites. Each site conforms to local, state and federal health standards and enters into an agreement with the local agency to assure proper food handling, storing, and distribution procedures and recording requirements are maintained. Agreements must include, at a minimum, the items required in 247.4.

Distribution sites, under agreement with the local agency, assure that adequate care and security is provided for the food while in their possession. Food packages are stored in adequate and secured areas at each distribution site to safeguard them from spoilage, infestation, fire and other losses. These storage areas may also be used to store The Emergency Food Assistance Program (TEFAP) commodities or other USDA foods for local use and distribution but must be inventoried separately. Inventory and distribution amounts as well as participant data are reported monthly.

Participants pick up food packages at their designated distribution site once each month during the distribution site's normal hours of operation. Staff or volunteers at the distribution site verify eligibility and identity of recipients prior to distributing the food packages.

7. NUTRITION EDUCATION PLAN, in accordance with 247.6(7):

Local agencies are responsible for making nutrition education available to all adult participants and to parents or guardians of infant and child participants. Nutrition education for child participants is encouraged, where applicable. At a minimum, local agencies distribute nutrition education information with monthly food packages in the form of a flyer, newsletter or handout. The State agency has developed a list of nutrition education resources available on the web and through various Missouri departments.

A survey was developed to evaluate the effectiveness of nutrition education efforts and to obtain participant input. Survey results are reported and posted on the Missouri CSFP webpage. Survey results help local agencies focus the nutrition information provided to meet the needs of participants.

8. DETECTION OF DUAL PARTICIPATION, in accordance with 247.6(8):

Local agencies refer categorically eligible women, infant and child applicants to the WIC Program, especially those who appear to be at high risk, while providing applicants with the right to choose between the two programs. See Exhibit D for a copy of the agreement signed with the State WIC agency. Local agencies check the identification of all applicants when they are certified or recertified. The Participant Application signed by the applicant, or the adult parent or caretaker of the applicant, includes a statement advising the applicant that he or she may not receive both CSFP and WIC benefits simultaneously, or CSFP benefits at more than one CSFP site at the same time.

Semiannually, local agencies submit an electronic spreadsheet with the names and identifying information about women, infants, and children participating in the CSFP. This information is consolidated and submitted to the Bureau of WIC and Nutrition Services for comparison with WIC participant information. Local agencies are notified if participants are determined to be dually participating in CSFP and WIC. Necessary and appropriate actions are taken in accordance with federal regulations and Missouri CSFP policies and procedures.

Local agencies are also required to establish safeguards against dual participation at more than one CSFP site at the same time by establishing procedures that identify participants who are participating in two different sites or by establishing specific service areas for each distribution site.

9. COST EFFECTIVE CLAIM STANDARDS, in accordance with 247.6(9):

The Missouri Department of Health and Senior Services has established the following cost effective claim standard: The pursuit of a claim against a participant to recover the value of CSFP commodities improperly received or used is cost effective when the value exceeds \$100 or 5 months of CSFP benefits. Local agencies are required to use this standard in determining if a claim is to be pursued and to pursue claims in accordance with 247.30 and Missouri CSFP policies and procedures.

10. HOMEBOUND ELDERLY, in accordance with 247.6(10):

Local agencies are required to make arrangements to meet the needs of homebound elderly. They are encouraged to coordinate these efforts with the local Area Agency on Aging (AAA) and the homebound “Meals on Wheels” program. Local agencies work with AAAs to identify potential homebound participants, to conduct outreach, and to conduct certification and delivery of food packages. Homebound elderly individuals are given priority over non-homebound elderly when applications exceed the assigned caseload level. Local agencies allow designated proxies to pick up food packages for homebound elderly individuals.

11. COPIES OF AGREEMENTS, in accordance with 247.6(11): See Exhibit C

**MEMORANDUM OF AGREEMENT
FOR THE COMMODITY SUPPLEMENTAL FOOD PROGRAM**
Community Food and Nutrition Assistance
And
WIC and Nutrition Services

Missouri Department of Health and Senior Services
October 1, 2005 through September 30, 2008

I. GENERAL PURPOSE

This memorandum of agreement (MOA) made by and between Community Food and Nutrition Assistance (CFNA) and WIC and Nutrition Services (WICNS) details the responsibilities of each party to assure quality and accessible care to improve the health and nutrition status of low-income children, pregnant women, breastfeeding women, postpartum women, infants and older adults. In addition, this MOA outlines the responsibilities of each party with respect to persons receiving Commodity Supplemental Food Program services (CSFP) and the Supplemental Nutrition Program for Women, Infants and Children services (WIC). Achievement of this goal will be facilitated by focusing on identifying individuals who are not being served by either program and formalizing and strengthening relationships between the programs, reducing duplication, increasing accessibility, and providing mechanisms for enhanced program coordination.

CFNA and WICNS agrees to:

- Collaborate on the formulation of plans for serving women, infants and children in common areas of service;
- Inform each other of events/circumstances that may have an effect on program participation levels;
- Refer women, infants and children who can not be served promptly in one program to the other, except that WIC services shall take precedence over CSFP services if a woman, infant or child qualifies for both and caseload is available in the WIC program to serve the women, infants and children; and
- Monitor and assure that duplication of services is avoided between CSFP and WIC.

II. RESPONSIBILITIES

Community Food and Nutrition Assistance (CFNA) will:

1. Provide funding, provide policies and procedures and evaluate services of local CSFP agencies that provide commodity foods to eligible women, infants, children and low-income older adults throughout the state.

2. Provide information to local WIC staff on the services and benefits of the CSFP.
3. Provide CSFP outreach and local contact information for dissemination at WIC clinics.
4. Require local contractors to refer categorically eligible women, infant and child applicants to the WIC Program, especially those who appear to be at high risk, while providing applicants with the right to choose between the two programs; and
5. Share information with WICNS as a means to detect/prevent dual participation. Semiannually, contractors for the CSFP will submit an electronic spreadsheet with the names of women, infants, and children and the guardian/caregiver SSN participating in the CSFP, including Medicaid number and social security number (if applicable), date of birth, sex and address to CFNA. CFNA will provide information to WICNS in the following format:

Program	Type of Program	Data Field 1	Data Field 2	Data Field 3	Data Field 4	Data Field 5	Data Field 6	Data Field 7
CSFP	Excel 3.5 disk	First Name 12 bytes	Last Name 18 bytes	Date of Birth mmddyy	Participant SSN 9 bytes	Guardian/Caregiver SSN 9 bytes	County 9 bytes	Sex (M/F) 1 byte

6. Will immediately notify appropriate local contractors of CSFP participants who are determined to be dually participating in CSFP and WIC. Will require local contractors to disqualify the participant from CSFP for a period of up to one year, unless the local agency determines that disqualification would result in a serious health risk or it is determined by WICNS that disqualification from the WIC program is more appropriate.

WIC and Nutrition Services will:

1. Provide funding, policies and procedures, and evaluate the services of local WIC agencies that provide direct health services to eligible women, children and infants throughout the state. State WIC staff will monitor and assure that duplication of services is avoided between WIC programs and the CSFP.
2. Provide information to local CSFP agency staff on the services and benefits of the WIC Program.
3. Provide WIC outreach and local contact information for dissemination at CSFP certification sites.
4. Assure WIC “graduates” (i.e., children who have reached their 5th birthday, non-breastfeeding women beyond their sixth month postpartum, and individuals no longer at nutritional risk) are referred to CSFP. This may be done by:

- a. Including a referral to CSFP with the notification at the end of the WIC certification period; and/or
 - b. Providing a list of imminent WIC “graduates,” with appropriate contact information, to the CSFP office for follow-up; and/or
 - c. Allowing and encouraging WIC “graduates” to complete a CSFP application at the WIC office, and forwarding the completed application(s) to the CSFP office for processing.
5. Require local contractors to refer WIC applicants who are categorically eligible for WIC but determined not to be at medical or nutritional risk to the CSFP.
6. Refer women, infants and children who cannot be served promptly by the WIC program because of an approved waiting list to the CSFP.
7. Refer older adults (age 60 and above) and children age five to age six who are members of WIC households to the CSFP.
8. Compare submitted data fields from CFNA against WIC database to determine if possible dual participation has occurred and notify CFNA of possible dual participants between programs.
9. Work with CFNA to determine which program to terminate should dual participation be detected.

III. QUALIFICATION

This agreement in no way requires or assumes services beyond available resources.
